+ Excellent Benefits

and Opportunities for Advancement!

Tuolumne Utilities District announces the opportunity for a Wastewater Treatment Plant Operator in the Operations Department and invites you to review the details of this recruitment.

Location: Tuolumne Utilities District is a water and wastewater utility serving nearly 44,000 residents in northern California's Tuolumne County. Based in Sonora, TUD's service area stretches along the scenic Highway 108 corridor, heading east from Jamestown up towards Sierra Village. Hiking, hunting, fishing, boating and golfing are just some of the recreational activities on our doorstep!

General Description:

Under direct or general supervision (depending on level) operates, repairs, and maintains the District's wastewater treatment facilities, including sewer lift stations, collection, and reclamation systems; reads and interprets charts and meter readings for analyzing the efficiency of plant operations; maintains chemical inventory; and performs other related work as required.

The **ideal candidate** will possess a current wastewater treatment certification **and** one or more years' experience operating a wastewater treatment plant and have proven/demonstrated exceptional work ethics and performance. Candidates who meet the minimum qualifications below may also be considered.

Minimum Qualification Requirements (OIT):

- High school diploma or general education degree (GED).
- Must possess a valid California driver's license, have a satisfactory driving record, and be insurable by the District to operate District vehicles.
- California Wastewater Treatment Plant Operator-in-Training (OIT) certification issued by SWRCB within 2 months of hire date, and Grade 1 Certification within 18 months of hire date.

See full job description for all level operator qualification requirements.

Application Process: To learn more about and apply for this exciting career opportunity, please visit: <https://tudwater.com/careers/job-openings/>. Carefully review the **HOW TO APPLY** sections before submitting your complete and signed application prior to any listed closing or initial review date.

Initial review of applications will be conducted on July 28, 2021. Recruitment will remain open until filled, **however, TUD reserves the right to close the recruitment at any time following the initial review date. Apply now before it is too late!** The Tuolumne Utilities District is an Equal Opportunity Employer.
